MAX POWER PLUS

PREMIUM DHALAI CEMENT

With Super 6 Advantages

PREMIUM PACKAGING

The BOPP packaging of Max Power Plus ensures freshness of the cement by protecting it from moisture & ensures almost zero loss during transit & handling.

HIGH VOLUME

Max Power Plus is made with Extra Advanced Technology which effectively increases the coverage area of the concrete mortar during Dhalai and thus saves overall construction cost.

HIGH STRENGTH

Max Power Plus attains a high early and high final strength thus making it ideal for all Dhalai applications such as foundations, slab, beams, columns etc.

SUPER SETTING

Concrete made from Max Power Plus hardens faster due to which strength gain is high and helps in faster construction.

SUPERIOR BONDING

Max Power Plus strengthen the bond between the cement and TMT bars to give Dhalai superior strength and stability.

SUPERIOR FINISH

High Reactive and High-Quality additives in MAX Power Plus helps in making a smoother concrete mortar that's provides excellent finish.

EVERLASTING DURABILITY

Max Power Plus forms a protective layer of gel which provides resistance to chemical, sulphate and corrosion attacks and hence protects your home.

EXTRA ADVANCED TECHNOLOGY
